### TEMPE

#### NOTES OF INTEREST FROM NORMAL SCHOOL

Newspaper Events of the Week Just Passed—High Attendance.

The following named officers and non-commissioned officers of the Normal cadet company were appointed last week by Capt. F. M. Irish: First lieutenant, Dan Pratt; second lieutenant, Kenneth Johnson; first sergeant, Warren Nichols; sergeants, Courtland Carter, Paul Corbett, Moffit Dean; corporals, Fritz Griffin, Jessie McComb, Bryan Akers, Ned Craig. Wednesday evening the Normal and high school basketball team met in the first practice game of the season. The Normal won by a score of 14 to 2. Craig of the Normal defeated Corner of the High school in a hundred-yard dash, and in another race Pitts of the Normal also de-

feated Hughes of the High school.

A meeting of the student body and faculty members was held during the week, the purpose being the consideration of a new method of discipline. The self-government plan, used in other schools with some success, is being taken under advisement at the Normal. At the meeting last week, a committee of students was appointed to further consider the matter with the faculty.

The new uniforms are beginning to arrive and within a short time their wearing will be required on all drill days. The gray uniforms that have been in use for some years, have been discarded and the new uniforms are olive drab cravatette.

The first student dance of the year was held at the gymnasium on Friday evening.

The attendance at the Normal has gradually increased, and at the present time is the largest in the history of the school.

#### RAINED ON DESERT.

S. Z. Earl of the Tempe garage was at the Taylor ranch on the desert Friday when the big rain came up. During the storm he and Mr. Taylor started for town in an auto. They report one of the hardest rains of the year on the desert, and say that for miles the road was entirely under water. Frequently it became necessary for one of them to wade on ahead to find out where the bottom was. Queen creek, ordinarily a well-behaved, dry stream, was a raging torrent when they left.

#### ANNUAL MEETING.

At the hour of writing the annual meeting of the stockholders of the Tempe canal was in progress. The old board of directors, consisting of C. G. Jones, Niels Petersen and C. M. Mullen, was re-elected, and considerable other important business transacted. A more detailed report will appear tomorrow.

#### PLENTY OF WATER.

There was plenty of water in the river yesterday. In the morning over ten thousand inches was passing the Tempe dam and by late afternoon a good-sized stream was passing at the bridge.

#### ANOTHER CATTLE BUYER.

Geo. Hoskins of San Diego, a well-known cattle buyer, is here again looking for fat stock.

#### JUST IN TIME.

Elling Olsen came over from Phoenix yesterday afternoon in a little Regal car. He reached the river just as a good-sized flood came down, but managed to get across. Five minutes later the stream was way beyond the depth of a machine.

#### ON WAY HOME.

J. M. Compton writes from Denver that he is now on his way home and expects to spend the winter here, returning to Colorado some time in the spring, perhaps. He will arrive here about the 5th of October.

#### ELECTED OFFICERS.

At the Thursday evening meeting of the Tempe Democratic club the following officers were elected: Dr. R. L. Alexander, first vice president; J. E. McClain, second vice president; M. E. Curry, treasurer; Charles Alexander, assistant secretary. By-laws were also adopted and a number of committees appointed. Hon. G. W. P. Hunt was present and gave an interesting talk.

#### FIRST SHIPMENT.

James Thomas, buyer for a meat company at Pomona, Cal., accompanied by M. L. Sparks, the president of the company, and Mrs. Thomas, have been spending several days in this section. While here eight carloads of cattle were purchased, and the first shipment of the season will be sent out today. The price of 5 cents, which was paid for these cattle, excites little comment now, whereas a year or so ago it was quite an unusual thing.

#### MINING MAN IN TOWN.

M. E. Morris, one of the directors of the Carney Mining Development

#### A CERTAIN CURE FOR CATARRH

The mucous membranes of the nose and throat are exposed to the irritating influence of dust, impure air, etc., and for this reason are the place where Catarrh usually first manifests itself. But these are simply exciting causes, the inflammation and discharge being really produced by an impure and vitiated condition of the blood. It is well enough to use some local treatment to cleanse these membranes, but any one can readily see that if the inflammatory matter is left in the blood, such treatment cannot possibly have any permanent effect. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter and irritating germs and at the same time builds up the system by its fine tonic effects. When S. S. S. has purified the blood, the mucous surfaces are all nourished and made healthy. There can be no inflammation of the membranes then, because the blood is pure, and every tissue receives nourishment instead of irritating matter. Our book on Catarrh will interest every sufferer of this disease, and it will likewise give proper advice as to what is best to use as a local aid while S. S. S. is purifying the blood. This book is free to all, and we will also be glad to give any special advice you may feel you need. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

#### HASSAYAMPA BUTTER CLEAN-PURE

company, is here from Philadelphia, and will remain for some time. Mr. Morris is one of the reliable citizens of the Quaker City, and one who has every confidence in the Carney mining proposition. By the way, work is progressing most satisfactorily upon the cross-cut tunnel, which is to cut the big body of copper ore which outcrops at a height of 1,200 feet above the tunnel site.

When your food does not digest well and you feel "blue," tired and discouraged, you should use a little HERBINE at bedtime. It opens the bowels, purifies the system and restores a fine feeling of health and energy. Price 50c. Sold by Elvey & Hulett.

#### A GOOD RAIN.

The rain of Friday and Friday night proved to be a rather hard one. Up to 7 o'clock yesterday morning, the precipitation of the preceding twenty-four hours was .54 inches. The sun came out clear and bright again yesterday, however, and the storm for the present may possibly be over.

#### IS VERY LOW.

M. O. Odell received a telegram from Los Angeles yesterday morning, stating that his son Otha was critically ill in a hospital, expecting the day after to undergo an operation for appendicitis. Unless there is an improvement in his condition, Mr. Odell will probably go to Los Angeles.

#### PHOENIX VISITOR.

Mrs. M. L. Gibbons of Everybody's drug store was a business visitor to Phoenix yesterday afternoon. During the absence of Mr. Gibbons she has had to put in much of her time in looking after the affairs of the drug store.

Neuralgia of the face, shoulder, hands, or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt it is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by Elvey & Hulett.

### MESA

#### BUSINESS MAN HAS CHANGED LOCATION

Wants Better Quarters and More Room.—Other Interesting News Items From Mesa City.

John W. Conolly, conducting a store on the north side of Main, between Macdonald and Center, last night moved into the Mahoney store room, on North Macdonald street. The reason for the change was to secure larger quarters, and thus enable a better display of goods to be made.

#### WILL REMAIN FOR FAIR.

Mrs. Gus Barkley is in from the Bark ranch, visiting with her parents, Mr. and Mrs. J. L. Anderson. Mrs. Barkley has been in poor health for several months past and hopes that a residence at a lower altitude will prove beneficial. She will at least remain until after the territorial fair.

#### PHOENIX VISITORS.

C. A. Baldwin and J. J. Fraser, members of the republican nominating committee, went to Phoenix yesterday afternoon to attend a meeting of the general committee. It is not certain, but there is an impression extant that the name of W. S. Dorman will be suggested for candidate on the republican ticket for nomination for the upper house of the Arizona legislature.

A number of Mr. Dorman's friends have been urging him to make the race, but he has hesitated for the reason that he does not claim to be a politician, but a plain business man, who has, by strict attention to business, been successful in avoiding the potholes and the clutches of the sheriff. Mr. Dorman would no doubt be a hard man to beat if he should get out and make a race. His friends are not confined to one party.

#### IMPROVING WINDOWS.

The Allison-Davis Hardware proprietors have torn out the board enclosed show windows of that store, thus giving more light to the interior and presenting cleaner looking window displays. The improvement is one to be commended.

#### TEACHER ABJURES THE WOOLLY WEST

None of the wild and woolly stuff for pretty Miss Johnson, ex-teacher at the country school at Johnson, this county, thank you. For the teacher, young and romantic, for she is only eighteen, the wild wooliness of Arizona was robbed of its romance Monday when Robert Arnold shot and killed F. M. McGovern and wounded William Watts with a bullet from the same pistol, at Johnson.

The tragedy congealed all of the romance that the young lady had absorbed from reading stories of the Arizona range and on the night of the day of the murder, Miss Johnson of California packed her trunk, on Tuesday morning the first train towards the golden west bore a sadly disillusioned young lady whose pretty lips had vowed "never again" for the wild and woolly stuff. Only the moving pic-

tures for her, accompanied by a chap-erone, hereafter.

Miss Johnson had been in Arizona only since the opening of school two weeks ago at which age the Virginian becomes "the grandest man" and she accepted a position as teacher at Johnson through correspondence with the school board of trustees.

Hereafter the school trustees will probably stipulate in their advertisements for teachers that they "must be broken to wildness and wooliness."—Bisbee Review.

Stop coughing! you rack your lungs and worry the body. BALLARD'S HOREHOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and \$1.00 per bottle. Sold by Elvey & Hulett.

We pay 4 per cent interest on savings.

## COMBINED CAPITAL & SURPLUS \$450,000.00

#### MANITOBA AN OLD COUNTRY.

It may surprise many Americans who as late as ten years ago looked upon Manitoba as on the edge of the world to know that Manitoba is probably the oldest settled section of the North American continent west of the Mississippi river and north of New Mexico.

It was near the present site of Winnipeg that Lord Selkirk settled his Red river colonists in 1812.

Away up in the Peace river country, 200 miles north of Edmonton, the Hudson Bay company has a wheat mill that has been in operation for fifty years. And Edmonton is 1000 miles west of Winnipeg and about 300 miles north of the United States line. The mill grinds wheat that is grown in the great fur region.

As a matter of fact, Western Canada was thoroughly explored many years earlier than was the district between the Missouri river and the Pacific coast in the United States. But for 200 years it was exploited by the fur traders, who discouraged every effort to turn it into an agricultural region. The factors of the fur companies resisted the incoming of the farmer.

The American is ubiquitous in Western Canada now. He is on the farm, in the towns, in the cities, in the irrigated districts, working hard and setting the pace for his neighbors. They

have caught the boom spirit from him, and some of them, like the young Scot, even go him one better at times.

Yet they have reason to boast, says the Columbian Magazine. Ten years ago Winnipeg had only 9,000 inhabitants. Ten years before that it was a small town. It is now the largest single inland grain market in the world.

Saskatchewan, the middle of the three prairie provinces, is an empire in itself, covering an area of approximately 250,000 square miles. Only the southern half has been touched and less than a quarter has been developed to any extent. Still it does fairly well. In 1909 its wheat crop amounted to 3,443,671 bushels. Now it raises from 75,000,000 to 100,000,000 bushels annually. Its oat crop has grown from 1,000,000 bushels in 1900 to more than 100,000,000 bushels annually.

Alberta, the province just west of Saskatchewan, is following right along. It is in the northern part of Alberta, near Calgary, in the Bow river valley, where the largest single irrigation project in the world outside of Egypt has been undertaken by the Canadian Pacific Railroad. Three million acres are to be irrigated when the work is completed, about half a million acres are now under the ditch.

#### PLUTARCH.

Mr. Plutarch was one of the best known writers of his day. He is said to have written more lives than Murat Halsted did, but this statement cannot be proven successfully.

Plutarch was the Elbert Hubbard of his time, however. He would extensively write the biography of some famous Greek, but this he would contrast unfavorably with the life of one of his own countrymen. His little visits to the homes of great men were among the sellers in his day and age.

When he was in his prime his country was flooded with book agents who worked by the Sheldon method of salesmanship. Plutarch kept a flock of geese to furnish quills for him.

Today his Lives are a fixture in every library. One would as soon think

of omitting the shelves as to omit "Plutarch's Lives," and Dante's "Inferno," or Milton's "Paradise Lost." The latter are nice books for a library; they look intellectual and they are the despair of eclecists.

Plutarch could have found lots of material today. He would have been a good editor for the congressional directory.—Chicago Post.

#### IT CERTAINLY IS.

Democratic papers are saying that Taff's swing around the circle is a great mistake. It most certainly is—from a democratic standpoint.—Journal-Miner (Rep.)

#### HAYDEN IN TUCSON.

"If I am elected to congress, I want to go to Washington representing the spirit of Arizona as expressed by our constitution."

Such is the sentiment of Major Carl Hayden, sheriff of Maricopa county and democratic candidate for the office of representative in congress, says the Tucson Citizen. Mr. Hayden arrived here this morning from Phoenix, after having finished a thorough canvass of the northern part of Arizona, and will remain in Tucson two or three days. It was for many years the home of his father, Charles T. Hayden, who was one of the pioneers of Pima county.
